Patient Appreciation Day

Dr. Ming-Phoung Le

Back to School

To all our patients, community, family and friends: we are so excited to bring back our annual Patient Appreciation Day on August 19th, 2021!

We had such an incredible turn out last year, and we are incredibly grateful to all of you for another fantastic season of new patients, that we are hosting Kona Ice again!

Our event will be outdoors, located in front of our practice. It will be a ticketed and free event, first come first serve! Please make sure to spread the word to family, friends or others in your area that might be interested!

Although this event is outdoors, we still ask that you wear your masks due to the nature of our pediatric services.

As a personal thank you, we are always excited to continue offering the best patient care possible! If you know of any new patient family or friends that are in need of our pediatric dental or orthodontic services; we'd love to see them!

Be sure to save the date! We are excited to see everyone there!

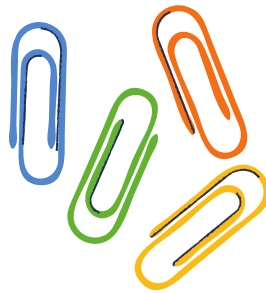

Accepting new patients

This past month, we've been in full gear introducing our new orthodontist Dr. Minh-Phuong Le to our practice, patients and community! Our orthodontics suite is now open on Tuesdays, Wednesdays and Thursdays and we are accepting new patients for initial orthodontic consultations starting at age 7! We also see adults! Call our office today at (703) 221-4040 to schedule your initial orthodontic consult!

Back to School

As we transition into this upcoming school year, we are wishing every one of our team members' children, patients, and community members a wonderful year ahead! We know you'll face challenges down the road, but there will always be a strong community of people supporting you! Good luck class of 2021-2022!

Looking Ahead: August

As more parents look to schedule appointments before the school year starts, we are offering a VIP Wait List for both our pediatric and orthodontic appointments. If you have chosen to be on our list at the time of scheduling, we will be in contact with you to provide alternate dates sooner than what is offered at the time you scheduled with us! Thank you for sticking with us during this busy time for all!
